

<b>Description:</b>	Amphoteric combination.
<b>Aspect:</b>	White powder.
<b>Concentration:</b>	Min. 94%
<b>pH (sol. 10%):</b>	7,0 – 9,0
<b>Application:</b>	Retanning.
<b>Properties:</b>	<p><b>UNIESP® BC</b> is an optical agent used in the retanning of the white chrome leather articles. It does not change the touch or softness in the final articles.</p> <p>We recommend the use of the <b>UNIESP® BC</b> in white type leather or bleached crust, like Napa glove or safety kind leathers. One side effect is that defects are less notable, improving surface quality of the crust.</p>
<b>Use guideline:</b>	We recommend using 2 – 3% of <b>UNIESP® BC</b> , calculated over the shaved wet blue weight.
<b>Storage:</b>	We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.
	
<b>Package:</b>	25 Kg plastic bags on 1.000 Kg pallets.
