

Description:	Micro emulsion between synthetic phosphoric ester and sulphited triglycerides.
Aspect:	Brown – reddish fluid liquid.
Concentration:	37,0 – 41,0%
pH (sol. 10%):	5,5 – 7,5
Charge:	Anionic
Light fastness:	Good
Heat fastness:	Excellent
Application:	In the main fatliquor of wet blue and vegetable leather articles.
Properties:	UP SOFT® ND16 gives an exceptional softness with low weight and excellent silky touch.

It does not affect the dyestuff intensity, keeping the shine aspect even in suede or nubuck kind of leather.

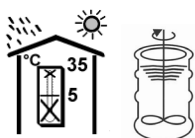

UP SOFT® ND16 has good penetration and is very indicated for all types of leather articles, after the neutralization, without interfere in the adhesion quality of the finishes.

Use guideline: **UP SOFT® ND16** emulsifies easily in water in any proportion and can be used alone or in combination with other **UP SOFT®** fatliquors.

The dose varies according the article:

-  Safety gloves: 15,0 – 20,0% over the wet blue shaved weight;
-  Shoe upper: 5,0 – 8,0% over the wet blue shaved weight;
-  Semi vegetal: 4,0 – 6,0% over the wet blue shaved weight;
-  Splits and suede: 9,0 – 15,0% over the wet blue shaved weight.

Storage: We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.

Package: 30 Kg plastic drum, 190 Kg metal drum or 1.000 Kg IBC.
